
SUBJECT: ACCOUNTING

CHAPTER TITLE: ORGANIZATION NUMBERS

The Organization Numbering System provides a numerical designation for each of the organizational units of the Department of Transportation. These numerical designations provide a means of gathering accounting and other operational information for each organization on the basis of its assigned number. Each DOT agency is assigned the following organization number or range of numbers.

	<u>ORG. NUMBERS</u>
Highways	0056 through 1099
Port Authority	3000
State Rail Authority	4000
State Rail Authority Board	4100
Motor Vehicles	5020 through 5444
Public Transit	6000
Aeronautics	7000
Civil Air Patrol	8000
Secretary of Transportation	0069

The larger DOT agencies require the assignment of multiple organization numbers. Within the noted range, specific organization numbers are assigned to permit information gathering for each administrative unit or sub-unit of the agency. The following listing identifies the assignment of organization numbers for Highways and for Motor Vehicles.
